OUR SCHOOL

ISTOM is an engineering graduate school specialized in **agronomy and international development**. We therefore study tropical agriculture, and socio-economical sciences.

These courses have helped us to prepare to the **conception and management of projects** in the area of agronomy and development. Presently our school "ISTOM", is represented by 2500 alumni's all over the world.

WHY US ?

- ◆ A full study spread over **one year**
- ◆ A group able to cover a **large study area**
- ◆ A low cost study
- ◆ A team of multi-skilled students and **adaptable** to a **variety of contexts**
- ◆ Supervised by **professionals**: teacher-researchers and a large alumni network.
